

Prof Dr J. John Mann

J. John Mann is The Paul Janssen Professor of Translational Neuroscience (in Psychiatry and in Radiology) at Columbia University and Director, Molecular Imaging and Neuropathology Division at the New York State Psychiatric Institute. He is a Past President of the Society of Biological Psychiatry, the International Academy of Suicide Research and the American Foundation for Suicide Prevention. He is a Distinguished Life Fellow of the American Psychiatric Association and a Fellow of the American College of Neuropsychopharmacology.

Dr. Mann received his medical degree from the University of Melbourne, and then completed his internship and residency at the Royal Melbourne Hospital. He was trained in Psychiatry and Internal Medicine and has a Doctorate in Neurochemistry. His research employs functional brain imaging, neurochemistry and molecular genetics to probe the causes of depression and suicide. Dr. Mann has published 596 papers and edited 11 books on the subjects of the biology and treatment of mood disorders, suicidal behavior and other psychiatric disorders. In private practice he specializes in the treatment of mood disorders and has been repeatedly named as one of America's and New York Best Doctors by Castle Connolly.

Dr. Mann has received research and teaching awards, including the American Suicide Foundation Research Award, the American Association of Suicidology Louis I. Dublin Award, the New York State Office of Mental Health Research Award, the Klerman Senior Investigator Award from the National Depressive and Manic Depressive Association, the Columbia University Department of Psychiatry Medical Student Teaching Award, the Stengel Award from the International Association for Suicide Prevention, the Morselli Medal from the International Academy of Suicide Research and the Mood Disorders Research Award from the American College of Psychiatrists.

Dr. Mann is an Honorary Professor of the University "Ss. Cyril and Methodius", Skopje, Macedonia and received a Visiting Professor Award from the Royal Australian and New Zealand College of Psychiatrists.
